BESPOKE GUTTERING

Guttercrest are specialists in manufacturing non-standard gutters. Our technical department will help you specify the profile of your choice.

These are some examples of bespoke products already manufactured for specific projects.

ALUMINIUM COPING & CAPPING

CREST WALL COPING

ARCHITECTURAL WALL COPING

CLICK-FIX WALL COPING

CAPPING SYSTEM

Ali-Fabs Copings and Cappings are a modular system, designed to be visually appealing, easy to specify, simple to install and competitively priced.

They are suitable for virtually all building styles. What's more, they can be used in conjunction with The Guttercrest Group's range of aluminium rainwater products, fascias, soffits, rainscreen and column casings.

CREST WALL COPING

- ✓ Highly engineered
- ✓ Any height building
- ✓ Adaptable

CLICK-FIX WALL COPING

- ✓ Generally used on low-rise buildings
- ✓ Tailor made for wall widths up to 450mm
- ✓ Simple snap-on fixing method

ARCHITECTURAL WALL COPING

- ✓ BBA approved
- ✓ Any height building
- ✓ Wall widths 150mm - 950mm

CAPPING SYSTEM

- ✓ Any height building
- ✓ Tailor made for wall widths up to 2800mm
- ✓ No brackets, direct fix

ALUMINIUM FASCIAS & SOFFITS

TAILOR MADE TO FIT ANY DESIGN

WIDE RANGE OF COLOURS & FINISHES

RADIUS & CURVED AVAILABLE

Fascias and soffits are available individually or as part of a combined system - uniquely designed, specified and fabricated for individual projects. They can act as a cladding, wrapped around a concealed gutter or act as a stand-alone fascia incorporating an external gutter.

LOW MAINTENANCE

NON-COMBUSTIBLE

**TURN YOUR VISION
INTO REALITY**

We manufacture a robust, aesthetic architectural solution to conceal structural columns and beams.

Square and round shapes are available as well as any bespoke shape. Single lengths are 3m, which can be stacked to achieve any height.

Perforations, LED lighting, feature halos and collars, acoustic linings and rodding eye access points can all be incorporated.

***TURN YOUR VISION
INTO REALITY***

A defining architectural feature, our aluminium window pods are made to measure to fit the needs of individual projects. They can be used in conjunction with our rainscreen cladding, copings, cappings, fascias, soffits and rainwater goods. Available in a wide colour range to blend in or contrast with other architectural elements.
