ALI-FABS

COPINGS
&
CAPPINGS

Ali-Fabs copings and cappings operate as a modular system, designed to be visually appealing, easy to specify, simple to install and competitively priced.

ALUMINIUM COPINGS AND CAPPINGS

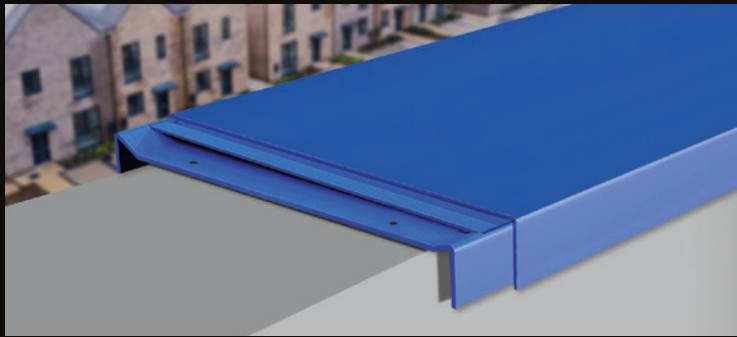

They are suitable for virtually all building styles. What's more, they can be used in conjunction with Guttercrest Group's range of aluminium rainwater products, fascias, soffits, rainscreen and column casings.

FAST DELIVERY

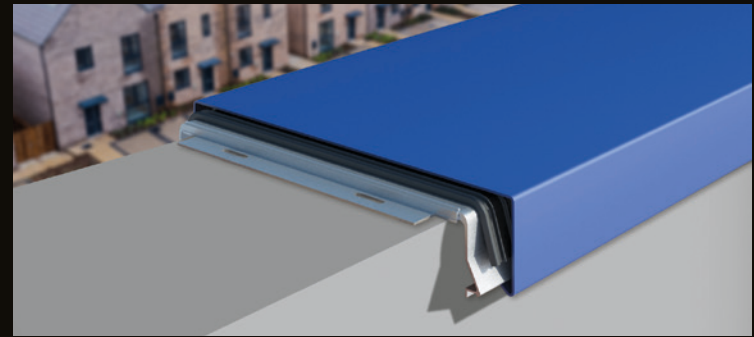

COMPETITIVELY PRICED

INSTALLER FRIENDLY

**ALUMINIUM
FACADES | RAINSCREEN
FASCIAS | SOFFITS**

Husk Architectural specialises in the manufacture of high-quality metal cladding, mainly aluminium and aluminium composite material (ACM) panels.

We also offer fibre cement and high-pressure laminate panels for use in architectural cladding, rainscreen and façade systems.

**COMPETITIVE PRICES
FAST LEAD TIMES**

WIDE RANGE OF COLOURS & FINISHES

All products can be polyester powder coated in more than 300 RAL or BS colours as standard, including heritage textured finishes and some metallics, with hundreds of additional special colours or textures available on request.

CONCEAL COLUMN CASINGS

ALUMINIUM BEAM & COLUMN CASINGS

www.columncasing.co.uk
conceal@guttercrest.co.uk
01691 663300

We manufacture a robust, aesthetic architectural solution to conceal structural columns and beams.

Square and round column casings are available as well as any bespoke shape. Single lengths are 3m, which can be stacked to achieve any height.

Perforations, LED lighting, feature halos and collars, acoustic linings and rodding eye access points can all be incorporated.

WINDYPODS WINDOW SURROUNDS

ALUMINIUM BESPOKE WINDOW SURROUNDS

www.windowpods.co.uk
windypods@guttercrest.co.uk
01691 663300

A defining architectural feature, our aluminium window pods are made to measure to fit the needs of individual projects.

They can be used in conjunction with our rainscreen cladding, copings, cappings, fascias, soffits and rainwater goods.

Available in a wide colour range to blend in or contrast with other architectural elements.

Tradcast offers a range of traditional cast aluminium guttering, downpipes, hopperheads, fittings and accessories.

The Tradcast range has all the characteristics of cast iron yet offers all the benefits of aluminium — products are much lighter in weight, have an exceptional long-life expectancy of over 70 years and are very low maintenance, especially when polyester powder coated.
